CHAITANYA MALI

+91 7709554280 | chaitanyamali02005@gmail.com | LinkedIn | GitHub

PROFILE

Motivated Computer Science undergraduate skilled at turning user and business needs into full-stack products using the MERN stack, JavaScript, HTML/CSS, REST APIs and Firebase. Experienced in building responsive, data-driven web platforms with real-time dashboards and integrated APIs. Familiar with AI/ML concepts, prompt engineering, GitHub and Jenkins CI/CD. Quick learner with strong analytical and problem-solving abilities, interested in enterprise ERP, AI automation and secure software delivery.

EDUCATION

Bachelor of Technology - Computer Science Engineering 2023 / 2027

Rajarambapu Institute of Technology, Rajaramnagar, Islampur
CGPA: 7.37/10 (First Class) | Minor in Mechatronics

Higher Secondary Certificate (HSC) 2023

Dr. Panchabhushan Vasantdada Patil Mahavidyalaya, Tasgaon | Percentage: 66.83%

Secondary School Certificate (SSC) 2021

Champaben Vadilal Dnyanmandir, Tasgaon | Percentage: 86.80%

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, Python, C
Frontend: React.js, HTML, CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication, API Integration
Databases: MongoDB, MySQL
Tools & DevOps: Git, GitHub, Postman, Jenkins, CI/CD Fundamentals, API Security
Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

PROJECTS

Smart Poultry Farm Management System - Ordering and Admin Monitoring

React.js | *Node.js* | *Express.js* | *MongoDB* | *REST APIs* | *External APIs*

- Developed a web-based customer ordering system and admin dashboard using the MERN stack, connecting frontend workflows with backend APIs and database operations.
- Built dashboard features for flock health, climate information, medication and vaccination schedules; implemented alerts for climate anomalies, treatment due dates, mortality thresholds and low stock.

MachineGuard - Industrial AI Maintenance and Operations Platform

React.js | *Node.js* | *Express.js* | *MongoDB* | *REST APIs* | *JWT* | *AI Integration* | *RAG*

- Built a MERN-based industrial monitoring platform with simulated sensor data, interactive telemetry dashboards, equipment health analytics, anomaly alerts and maintenance work orders.
- Integrated a FastAPI-based AI service and RAG assistant to analyze machine conditions, retrieve maintenance guidance and provide explainable recommendations through the application.

CERTIFICATIONS

- AI-ML Virtual Internship - AICTE
- Web Development using HTML & CSS (Foundation Certification) - TechA
- Software Development Life Cycle (SDLC) Certification
- SQL (MySQL) Basic & Intermediate Certification - HackerRank, 2026

ACHIEVEMENTS

- Secured 2nd Rank in the EEDP Project Competition (2024), Rajarambapu Institute of Technology, Islampur.
- Successfully completed a Full Stack MERN Workshop, gaining hands-on experience in modern web development.
